

Attention Golfers

On Monday, July 27, 2009 the golf course will be closing at noon and will not reopen til Tuesday, July 28, 2009 at noon. We are asking all members, customers and residents to please stay off the golf course during this period of time. We are applying some pesticides to the golf course and we will also have signs posted at highly accessible areas of the golf course as a reminder that the course is closed and practice areas as well.

Should you have any questions, please stop in the golf shop. We thank you for your cooperation in this matter.
